PROFESSIONAL SUMMARY

Frontend Developer with 2.5+ years of experience building scalable, high-performance web applications using React.js, Next.js, TypeScript, and modern frontend technologies. Skilled in reusable component architecture, REST API integration, state management, performance tuning, and responsive UI development for fintech and healthcare platforms. Experienced in building production-grade applications with a strong focus on accessibility, SEO, scalability, and user experience. Proficient with AI-assisted development tools including GitHub Copilot, ChatGPT, and Claude to accelerate development and improve code quality.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3
Frameworks/Libraries: React.js, Next.js, TanStack Query (React Query), Redux, Context API
Frontend Development: Responsive Design, Component Architecture, SPA, SSR, SSG, Accessibility, SEO
Styling: Tailwind CSS, Material-UI (MUI), SCSS
Performance Optimization: Code Splitting, Lazy Loading, Memoization, Lighthouse, Web Vitals
API & Data Handling: REST APIs, Axios, Fetch, Async/Await, JSON
Tools: Git, GitHub, VS Code, Chrome DevTools
AI tools: ChatGPT, GitHub Copilot, Claude, Google Gemini
Deployment: Vercel, Netlify

PROFESSIONAL EXPERIENCE

Software Developer

Bankai Informatics Pvt. Ltd. (formerly Acute Informatics) (Fintech Applications) | Jan 2024 - Present

- Engineered and maintained 15+ production-ready screens for a multi-bank fintech platform with pixel-perfect UI and cross-browser compatibility
- Architected reusable and modular component systems to accelerate feature development and ensure UI consistency across applications
- Integrated and streamlined multiple REST APIs for real-time workflows, improving operational efficiency across multi-branch banking operations
- Improved application performance using lazy loading, code splitting, and memoization techniques, achieving under 2-second load times
- Refactored legacy frontend modules into reusable and scalable component architecture, improving maintainability and reducing future development effort
- Accelerated development using AI tools like ChatGPT and GitHub Copilot for debugging, refactoring, and enhancing code quality
- Tech:** React.js, TypeScript, Material UI, REST APIs

Freelance Frontend Developer (React.js)

h-Case (Healthcare Application) | Oct 2023 - Jan 2024

- Optimized onboarding flows, increasing user activation rate by 25%
- Built and delivered core modules including scheduling, intake forms, and admin dashboard
- Led frontend architecture and independently delivered end-to-end features
- Enhanced user experience through efficient rendering and structured component design
- Tech:** React.js, JavaScript, Redux, Material UI

PROJECTS

Real-time Weather Application

URL: rushibutani.github.io/weather-app

- Developed a real-time weather dashboard with geolocation, debounced search, and 5-day forecasts
- Implemented error handling, loading states, and resilient UI for unstable network conditions
- **Tech:** React.js, SCSS, OpenWeather API

GitHub Analytics Dashboard

URL: rushy-github-analytics.vercel.app

- Built a data visualization dashboard using GitHub API with interactive charts (commits, stars, languages)
- Achieved a 95+ Lighthouse performance score through Next.js Static Site Generation (SSG), caching, and pagination
- **Tech:** Next.js, TypeScript, Tailwind CSS

Personal Portfolio Website

URL: rushibutani.me

- Developed and deployed a fully responsive portfolio with smooth animations and SEO-focused architecture
- **Tech:** Next.js, TypeScript, Tailwind CSS

EDUCATION & CERTIFICATIONS

Frontend Development Course

TOPS Technologies, Ahmedabad | 2022 - 2023

The Complete Frontend Web Development Course

Udemy

M.Sc. in Organic Chemistry

CCSIT College, Junagadh | 2018 - 2020
